

The S. S. Siberia arrived off port yesterday morning a full day ahead of time. She brought fourteen cabin passengers and 78 tons of freight for this port.

The principal event of interest during the voyage from Yokohama was the passing of the Manchuria with the Taft party aboard. The steamers passed within 200 yards of one another and saluted with sirens and whistles. The weather was fine and everybody on both vessels seemed to be on deck.

Among the through passengers are several Russians returning home from the war. Miss Pavlovsky and Miss Tour are Russian nurses and Sisters of Mercy, who are on their way home.

Mrs. James S. Fearon and Miss Fearon are the wife and daughter of a prominent Shanghai merchant who is also agent for the Pacific Mail.

Mr. C. R. King is the traveling auditor for the Pacific Mail Company. Frank Vida returned from Shanghai, where he has been visiting his sister for some time.

The Siberia took an unusually large crowd of people from this port, over 100 all told.

Captain William Matson and party returned to the Coast.

Mrs. James A. Hopper and two children, Mrs. W. O. Smith and children, and A. Brock, wife and child were departing passengers. Jas. B. Castle, T. W. Hobron, wife and child, and Aug. Ahrens also left for the Coast.

Officers on the Siberia report that 30,000 Japanese soldiers left Yokohama for Siberia on transports not long ago. This was the first time troops have been sent direct from Yokohama to the war. Heretofore they have been sent from western ports.

The Solace left Yokohama two days ahead of the Siberia. She is due here about August 2, but comes here by way of Guam.

The Siberia got away for the Coast at 5 p. m. yesterday.

#### TRANSPORT NOT COMING.

There will be no transport calling at Honolulu next month on the way east to San Francisco. Orders have been issued detaining the transport Sheridan which should arrive here about August 6th, at Manila. It is reported that she will be used by the Taft party in addition to the Logan. This was the boat that the band would have taken if they had received word to come to Portia. A number of others expected to take the Sheridan. The Thomas is at San Francisco repairing, so that there are enough boats at this end to keep up the schedule westbound. The Buford is making a direct run from Nagasaki to San Francisco. The Dix left Seattle Wednesday with a load of horses, mules and cattle. She goes direct to Manila without calling at Honolulu.

#### LIGHTHOUSE RECOMMENDATIONS.

Assistant lighthouse inspector A. P. Niblack has completed and forwarded to the lighthouse board, his annual report ending June 30. In the report Mr. Niblack recommends that \$200,000 be appropriated to enlarge the lighthouse system on these islands. The money would be used for the construction of new lighthouses and the installing of new lights, but the cost of acquiring titles to the needed land is not included in Captain Niblack's recommendation.

#### NEW WATER BARGE.

The naval station expects to be supplied with a water barge with a capacity of 100,000 gallons in the near future. The barge was built at Mare Island and will probably be towed down here. It should arrive in a short time, inasmuch as the station has been notified that some of the equipment for the barge is already on the way. When it does arrive the barge will be used to carry water to warships and transports lying away from the wharves, or from places where water is not pumped.

#### REFUGEES ON SIBERIA.

Five refugees from Port Arthur are aboard the liner Siberia. Two of them are surgeons, Doctors Moultonowsky and Polozoff; two are nurses, Misses Pavlovsky and Toul, while the fifth is a civilian, Mr. B. Beletski. They left the fallen fortress last winter, so do not know anything about its condition at present.

#### SHIPPING NOTES.

The Mikahala sailed for Kauai ports at 5 p. m. yesterday.

The C-A-S. S. Mowera is due from Victoria and Vancouver tomorrow.

The Maui arrived from Maui ports yesterday morning with passengers and freight.

The ship Emily F. Whitney is out fifteen days from San Francisco bound for this port.

The R. R. Rithet arrived in San Francisco yesterday morning. It took her thirty days to make the trip.

Inouye, a sailor on the Maui, mashed his thumb in an anchor block at Kahului when the steamer was there on Wednesday and was left behind for treatment.

Captain Quartermaster Taggart of the U. S. A. T. Sherman has been relieved. It is not known what duty he will be assigned to now. He has been in the transport service for a long time.

## NON-LEPROUS BOYS' HOME OUT AT WALLEE

A site somewhere in the vicinity of the Boys' Reform School at Wailee, Waialua, Oahu, may be chosen for the home for non-leprous boys, offspring of leprous parents. At the Board of Health meeting yesterday this was one of the important matters considered. President Pinkham and others thought it an admirable place, for the Reform School boys are kept healthy and learn much of agricultural pursuits. The president also stated that the war on mosquitoes was now being waged again and he expected to secure the co-operation of the county officials to further the work.

Present at the meeting were President Pinkham, Dr. Judd, Dr. Wayson, A. Fernandez, Fred Smith and M. P. Robinson.

The formal statements of conditions in the Health Department for the past two weeks, presented by President Pinkham, were approved. Yesterday's report was as follows:

To the Members of the Board of Health:

The meeting called for the 19th instant failed to secure a quorum.

As has been stated in the press, a conviction, at the instance of the Board of Health, was secured of one, Dr. N. Tatum, for practicing medicine without a license. It appears this person had under observation two fatal cases of contagious disease without having recognized its character. The cases were such as should have been promptly recognized and reported to the Board of Health.

I now have to state that three doctors of the same nationality in attendance, on another island, on four cases of contagious disease, failed to recognize or report these cases. When they applied for a burial permit the local plantation physician discovered the character of the disease and took all the measures necessary to prevent its spread.

So far as the authority and influence of the incumbent President of the Board of Health can be exerted it will, even more than in the past, be used for more exacting standards. The officers of the board are attending to the situation as it exists.

Next to the Leper Settlement on Molokai, the most important matter we have in hand is the establishment of a home for the non-leprous male children of leprous parents. The sum granted for this purpose is small, only \$6000, with \$3000 per annum for maintenance.

I have directed a census taken of these boys at the settlement, together with such information as will enable us to act wisely in forming our plans.

Part of our work will be educational. Permit me to say, I believe the curse of education in the Hawaiian Islands and America is the belittling of the dignity of physical labor, particularly here where nature is in conspiracy with a lazy disposition, and there is neither cold nor frost to freeze a person into activity to preserve his existence.

The ordinarily situated boy, or man, who physically daily and continuously labors for his whole means of existence and betterment, lays a foundation of character for which no theories can find a genuine substitute, though on this foundation education and principle may produce more excellent character. A wholly untired boy has not an undue inclination for mischief.

I hope, as a board, we shall favor plans for these boy wards of ours that

will make them self-reliant, intelligent, practical and effective workers and good citizens.

Upon receipt of the information called for, the matter will be laid before you in detail.

In President Pinkham's report for the previous week, the following statements were made concerning government physicians:

All the Government physicians have been appointed except in the districts of Koolau (Molokai), Hanalei and Waimea, Hawaii, where there are no resident physicians.

Owing to certain circumstances no physician for Puna, Hawaii, has been appointed.

Dr. Hubert Wood, through an arrangement with Mr. Goodale, manager of the Waialua Agricultural Co., will act as government physician for the district of Waialua. Both desire it understood it is strictly a pro bono publico act.

The physicians of the Ewa and Waianae districts justly and properly refuse to accept appointment as government physicians at the compensation of ten dollars per month appropriated.

As the dead must be legally buried, and the death certificates properly vised, the following physicians have consented to act in their parts of the district of Ewa as agents of the Board of Health for the granting of burial permits only, and without compensation.

Notices will be posted throughout the district.

Dr. C. B. Cooper—Honolulu plantation and vicinity.

Dr. K. Hofmann—Oahu Plantation and vicinity.

Dr. C. R. McLean—Ewa Plantation and vicinity.

A similar disposition of the Waianae district will be attempted.

President Pinkham reported that a Japanese physician has recently been operating in Kakaako without a license, and there were three others on Maui.

The matter of the appointment of a physician for Kohala was brought up. The president has written to Senator Palmer Woods to get the people to gather and ascertain who they want—Dr. Bond or Dr. Atcherly. A case of typhoid fever there was attended by Dr. Atcherly, although a physician from another district had gone to the place after writing to President Pinkham.

As to site for school for non-leprous boys of leprous parents, the board had several propositions. The choice of location seemed to be in the neighborhood of the new Reform School at Wailee. President Pinkham will inspect the country there in a few days.

The sum of \$200 was voted to the reimbursement of the Catholic mission for the expense of bringing a Catholic Brother from Belgium for work at the Leper Settlement.

As to cemeteries, President Pinkham reported there were seventeen in the city. A new one had been proposed beyond Diamond Head.

The quarantine hospital has been put in shape again with Paul Smith in charge.

Dr. Judd thought the present morgue was not a sanitary building. As a morgue it should have a cement floor. He said a senator had understood the appropriation of \$5000 for the building now used as the dispensary building was really intended for a morgue.

## HOLE IN CRUISER

Storekeeper Clark of the Siberia told yesterday of some of the warlike scenes in the ports of the Island Empire visited by his ship. "At Nagasaki we saw a fine looking Japanese cruiser, resembling the Chitose somewhat. There were two tremendous holes in her sides where a Russian shell had gone clear through the ship. The shell entered on the quarter, cleaned out the wardroom and went out of the other side. The hole was big enough to drive a cart and horse through and we could see the ships and water on the other side of the cruiser through the hole as we went past. It is evident that some at least of the Russian shells struck home. There were several other warships at Nagasaki, but the captured Russian ships are at Sasebo, the naval base where they are being repaired. The Japanese expect to save most of the ships at Port Arthur.

"At Yokohama the first-class battleship Asahi, one of Togo's fleet, came into the harbor while we were there. She swung around and up to her anchor, passing very close to the Siberia. We could see her very easily. I did not observe any special marks of the conflict in the Straits on her."

"There is no let-up in the dispatching of troops to the front. When we left Yokohama thirty thousand men were being embarked on transports, to be sent to the war zone. This is a new move as formerly troops were sent by rail to Moji, taking the transports there."

## MEMPHIS IS PROUD OF TRENT

The News-Scimitar of Memphis, Tenn., dated July 11, says:

Memphis is well represented in the Pacific colony of the United States as is shown in the recent elections in Honolulu, Hawaii, when R. H. Trent, a broker in this city, was elected on the Democratic ticket as county treasurer. Mr. Trent is well known in Memphis, having for many years been in the brokerage business associated with Levi Joy, the firm then being Joy, Trent & Co. The many friends of the former Memphis will learn of his political success with pleasure.

The Honolulu political situation has fast become Americanized, according to the accounts of the Pacific Commercial Advertiser, a paper published in Honolulu. The paper states that the defeat of Candidate Booth was in effect an overthrow of "ring rule."

Another feature of the election of Mr. Trent is that he was one of two Democratic nominees to win in the general elections. Mr. Trent is still a young man, and judging from his present success in the political world of the West, Memphis may expect greater victory for her son in years to come.

## DANGER MENACING THE UNITED STATES

NEW YORK, July 19.—Special Agent William Waudby of the United States Bureau of Labor has issued an official statement in which he says it is of vital interest to the American nation that the question of whether immigration should be suspended be immediately taken up by the Government. Mr. Waudby's statement says:

"Nearly two-thirds of the entire immigration of the world is directed to the United States. The invasion and successful capture of the United States has been accomplished. We have provided the means of transporting the millions of invaders and the railroad and steamship companies make a profit of \$50,000,000 per annum in landing them.

"The United States has full power to exclude aliens altogether."
